

SP10800

Ared-108/810 Mounting Plate

Overview

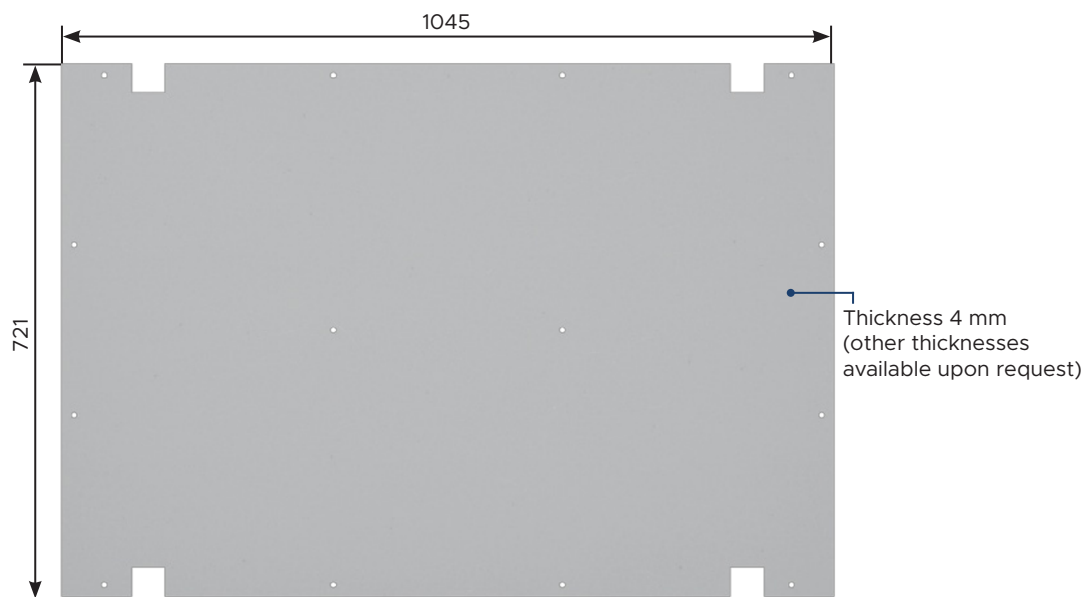

- Monoblock Mounting plate made of glass-fiber-reinforced polyester (SMC) in RAL 7035 gray (contact us for other materials).
- Designed for use in photovoltaic applications, the installation of distribution, control, and metering panels, site panels, and industrial applications.
- Features machined mounting holes for the cabinet (contact us for additional machining options).

Technical specifications

Characteristic	Value	Standards
Thermal class of SMC polyester	F (155°C)	UNE-EN 60085
Self-extinguishing (glow wire)	960°C	UNE-EN IEC 60695-2-10
Resistance to chemical, environmental and UV exposure	Yes	N/A
Continuous operating temperature	-30°C to 150°C	N/A
Internal mounting dimensions (height x width x depth)	721 x 1045 x 4 (mm)	N/A
Weight (including mounting plate)	5.4 kg	N/A

Dimensions

Supply format

- Multiple lots of 10 units.
- A maximum of 15 packages of 10 plates per pallet are supplied.

Accessories

Accessory	Code
Screws for the mounting plate	SE15073
